DETAILED ACTION

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 09/21/06 has been entered.

Allowable Subject Matter

2. Claims 1-10 are allowed.

The following is an examiner's statement of reasons for allowance:

In response to remarks and claim amendments made in Applicant's RCE filed on 09/21/06, and upon conclusion of a comprehensive search of the pertinent prior art, the Office indicates that the claims, as amended, are allowable.

Nether references cited nor cited references disclose a power source terminal of a first substrate electrically connected to a power source line of a second substrate through a via. Further, the prior art, taken alone, or in combination, does not teach or suggest all the elements of the claimed invention in the manner as disclosed by the applicants.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Takeuchi et al. and Urbish et al. disclose related art.
